GERMAN CAPITAL IS FACING A CRITICAL DAY

Special Deputies Again Are Guarding Mines

RED LEADERS PLAN UPRISING; SECURITY POLICE CONFIDENT AS CRISIS IS NEARING

Essen Scene of Violent Fighting When the Communists Launch Attack

DIRECTOR OF SAFETY ADMITS THE DANGER

Communists Plan General Strike and Burning of Electrical Plants

(International News Service)
BERLIN, March 29.—Fourteen persons were killed and 46 wounded in a violent clash between the security police and communists in the Ruhr district today. Essen, scene of the fighting, is the scene of the great Krupp works and other iron and steel industries. Large number of communists from Middle Germany, where the trouble began, are flocking into Berlin with the announced intention of assisting the reds in a revolution.
The director of public safety has admitted the situation is more serious and this may prove a critical day. Red leaders have made plans for an uprising with strikes and sabotage of the electric plants in the Berlin district. Following this the reds plan to paralyze industry and tie up railroad traffic.
Police officials were confident they could cope with the situation but declared if the reds were even successful to a small extent, it would open the way to plundering by the lawless element of the city's population.

WILD REJOICING IN WAKE OF VICTORIES BY GREEK FORCES

(International News Service)
ATHENS, GREECE, March 29.—News of fresh successes against the Turkish Nationalists turned today into one of wild rejoicing in the Greek capital.
The city was decorated with flags and bells were rung. Triumphant tedeums were chanted in the churches processions marched through the streets.
According to last news from the Smyrna front, the Greeks are pushing ahead in three directions, eastward, northward and southward. The Nationalists, who attempted to make a stand against the column moving toward the southeast, were defeated and driven back. They are now retreating on Konia.

Special Term to Try Williams Up

ATLANTA, March 29.—Indications were today that John Williams, Jasper and Newton county farmer under indictment on charges of having slain negro workers, and Clyde Manning, ment, will be brought to trial in one of whose confession resulted in the indictment, will be brought to trial in one of the two counties at a special term of court. Efforts to bring them to trial at the present session in Newton county have been dropped on the plea of counsel for Williams for more time to arrange the case.

STILL TAKEN
A still of 30 gallon capacity was captured during the week end by officers in a raid on what is known as "Buzards Cave" they reported today. Officers participating in the raid were: Revenue Agent Howell, Deputies Hamilton, Crook, Hardy, Wiley.

HEALTH HINTS ARE GIVEN TO AID CITIZENS IN "CLEAN-UP" DRIVE

By DR. B. F. AUSTIN,
County Health Officer.
Below I am giving some hints for "Clean-up Week" that will perhaps be of assistance to the residents of Albany-Decatur in the "Cleanest Town" contest.
1. See that all rubbish is removed from your back yard and surroundings.
2. Dispose of waste paper and other household rubbish regularly. Don't allow these to litter the streets and alleys.
3. Do not forget the attic and other remote places.
4. Clean all windows and keep them open to fresh air and sunlight.
5. Do not forget what plenty of soap, hot water and sunshine will do.
6. Remember that dry sweeping and dusting are dangerous practices.
7. See that leaky roofs and defective plumbing are repaired.
8. Do not tolerate dirty, broken walls and ceiling.
9. Cease keeping company with the rat; build him out of your home by placing metal laths between double walls.
10. Drain moisture from garbage before placing in can.
11. Provide a proper garbage can and keep it covered.
12. Place the garbage can where the sanitary wagon can get it.
13. Do not let milk bottles stand unwashed after use.
14. Remember, No Filth, No Flies, Less Disease.
15. Keep loose manure in fly-tight boxes and remove at regular intervals.
16. Fight the flies by eliminating their breeding places.
17. Keep the weeds cut on your vacant lots.
18. Inspect your roof gutter, cisterns and fountains for mosquito breeding.
19. Drain, oil and screen against malaria carriers.
20. For the sake of your health, adopt this slogan, "Clean up and keep clean."

DISPOSITION OF YAP DELICATE QUESTION JAPANESE ADMIT

By HARRY L. ROGERS
(International News Service Staff Correspondent)
WASHINGTON, March 29.—The question of the island of Yap is most delicate, but there is every reason to believe diplomacy will find a satisfactory solution of the problem, according to Baron Megata, member of the League of Nations, who is passing through Washington on his way to Japan from the recent meeting of the league at Geneva.
The Baron will leave for San Francisco, where he will remain a few days before sailing for Tokyo. Being technically still on a mission which includes the question of mandates over the islands of the Pacific, the Baron declined to enter a detailed discussion of the Yap situation, though he expressed the belief that the controversies over the disposition of the former German cables would be cleared up satisfactorily in the communications and conferences now in session here.
Asked his opinion regarding the California situation, the Baron said: "It is perfectly natural that Japanese who have lived in California for a long time and by their industry and intelligence have improved the land should feel some concern at the suggestion that they be deprived of the privileges they have enjoyed. I am sure, however, that the Japanese both here and in Japan are viewing the situation calmly and will cheerfully abide by any decision which the two nations may reach."
The Baron is inclined to be skeptical of suggestions that universal abolition of armaments is a possibility of the immediate future.
Asked about Shantung, the Baron said: "Japan formerly and officially made the statement nearly two years ago that Shantung would be returned to China just as soon as conditions warranted. There has been no change in that policy."
"With regard to Saghalian the situation is quite similar," the Baron said.

Peach Crop is Victim of Frost

(International News Service)
WILMINGTON, DEL., March 29.—The entire Delaware peach and apple crop is believed to have been ruined by high winds, hail and heavy frost last night.
Peach trees that were in blossom yesterday are today blackened as if by fire. Crops of strawberries and other straw fruits also were ruined. The damage runs into millions.

SIX BODIES FOUND IN DEBRIS AFTER MYSTERY BLAST

(International News Service)
CHICAGO, March 29.—Six bodies, terribly mangled, have been recovered and many persons were injured in a terrific blast of unknown origin, which wrecked a four story paper warehouse on the near southwest side shortly before eleven o'clock today.
Fire followed the explosion and firemen and police were at work searching the smoking ruins for possible additional victims of the explosion.
At 11:30 Coroner Speaker M. Hoffman issued a statement in which he said the death toll would probably reach ten and the injured probably about 60. This statement was based on a partial check of those working in the place and those known to have been in the vicinity at the time.
A special detail was investigating the report that a leaky gas main was responsible for the explosion. Windows within a radius of many blocks were shattered by the terrific concussion and men and women employees rushed from nearby stores and houses in panic.
Identification of the bodies taken from the debris has been impossible because of their mutilated condition.

VETERAN IS CALLED BY DEATH TUESDAY

W. R. Frazier, aged 78 years, died this morning at the home of his daughter, Mrs. C. T. Sewell. Mr. Frazier was a veteran of the Civil war, having served bravely under the flag of the Confederacy. Arrangements for the funeral will be announced later.
Mr. Frazier had been a resident of Albany about 20 years. He was a native of Jefferson County and had many friends in both Morgan and Jefferson to whom the announcement of his death will be a distinct shock.
Funeral services will be held Wednesday afternoon at 3:30 o'clock at the residence, 407 West Moulton street, Revs. W. P. Wilks and L. F. Goodwin conducting the services. Interment will be made at city cemetery, the following acting as pallbearers: R. E. Chandler, A. P. Johnson, Guy Flaunt, John Wear, O. J. Thomas, Frank M. Burk.
Mr. Frazier is survived by the following: two daughters, Mrs. W. B. Lindsey, of Birmingham and Mrs. C. T. Sewell, of Albany; a son, A. L. Frazier, of Albany.

EUROPE FINE FIELD FOR MISSION WORK DECLARES MULLINS IN ADDRESS HERE

President of Theological School Speaks at Central Baptist Church

PLANS ARE MADE FOR GREAT MISSION DRIVE

D. F. Green, Financial Secretary, Also Speaks on the Baptist Program

The European world has been plowed asunder, and old traditions destroyed, as a result of the war, according to Dr. B. Y. Mullins, president of the Baptist Theological at Louisville, in his address at the Central Baptist church last night. The speaker said that Europe was the missionary ground that needed to be reclaimed by evangelical Christianity. Backing his own experience and wide observations, with numerous authorities both modern and ancient Dr. Mullins declared that no such thing as Apostolic Christianity existed in Europe today, except in isolated places. He quoted the well known reference book "Gesta Christi" which he said an Episcopalian wrote to the effect that the worst thing that ever happened to the early church was when the "little spiritual deserts" or churches set up by St. Paul, came under the sway of Constantine, the Great.
It was declared that the world war did not prove that Christianity was a failure but "did prove that every thing else was a failure, except Christianity. In a glowing word picture the speaker recounted how Europe had about all of culture and all of philosophy, but had fallen. In humorous vein the great educator described philosophy "as a blind man looking in a dark room for black cats that was out of the room at the time."
Dr. Mullins' address was full of delightful humor, and in spirit he was exalted and above littleness. He said that his church associates held "the freedom of the soul" above every thing else, and that all true Baptists were ready to defend the right of free worship for every faith.
The simple stories the great scholar told of the simple loving faith of the Christian Baptist Roumanians sank deeply into the minds and hearts of his hearers. The purpose of Dr. Mullins' visitations to the churches of the Southern Baptist convention is to tell of his recent trip to all the countries of Europe, as one of two official messengers. Dr. Gambrell, of Texas being the other. A second purpose of his visit is to encourage every Baptist to pay his pledge to the seventy-five Million Mission Fund. D. F. Green, missionary secretary for the Baptist of Alabama is turning the state with Dr. Mullins, and made a short address prior to that of the distinguished visitor. Mr. Green said that the honor of Baptists was at stake and that they must without fail pay their great missionary pledge. He said that \$765,000,000 was due on April 30. An inspiring song service preceded the speaking. Dr. Wilks introduced Dr. Mullins and Dr. Davidson and Rev. R. F. Stuckey led in prayer.
A very thrilling part of Dr. Mullins' address, was where he quoted Dr. John A. Broadus, president of the Louisville Seminary when he was a student there and the father of the late S. S. Broadus.
He said that "opportunity" was like a great horse coming at full gallop, but which stopped a moment at each door. "If you rush out and place your foot in the stirrup and mount the horse quickly you will ride to a great destiny; if you doubt, hesitate or delay, away goes the riderless horse and his echoing footsteps, only serve to remind that "opportunity" has gone on and left you." The speaker said that the church must be quick, if it fulfilled its great mission, that the King's business demanded haste.

NEW CONSUL IS COMING TO U. S. FOR THE SOVIET

(International News Service)
LONDON, March 29.—Horis Littinoff, former head of the Russian trade commission that conducted negotiations with Great Britain for the opening of commercial relations, has been assigned to replace Ludwig C. A. K. Martens, as Soviet agent in the United States, according to an Exchange telegraph dispatch from Helsinki today.

STRONG FOUR CLUB CITY LEAGUE OPENS SEASON APRIL 15 MANAGERS DECIDE

Forfeit to be Posted Immediately by Each Club in the Circuit

MEETING TODAY TO CHOOSE THE UNIFORMS

Applications L. & N. Shops and Albany High School Are Withdrawn

The Twin City Baseball League will be composed of only four teams, according to a decision reached at a meeting of representatives of the clubs in the Y. M. C. A. last night, with President W. W. Rahm presiding.
The teams now composing the circuit are: American Telephone and Telephone company, Spencer Athletic club, Independents and American Legion. The representatives decided to require each team to post a forfeit of \$25 immediately, binding the team to obey the rules of the organization. This fund, along with whatever other revenues may be left in the treasury at the end of the season will be divided among the teams completing the season.
A meeting of business managers of the four clubs will be held this afternoon to adopt uniforms and work out a few remaining details.
President Rahm was appointed a committee of one to draw up a schedule for the first half of the season. It was decided last night the pennant chase probably would prove more popular if the season was split, the first half opening April 14 and ending on July 4 and the second half on Labor Day.
Much to the regret of other members of the circuit, the Louisville and Nashville shop team was withdrawn from the league last night, the majority of the players being signed by other clubs.
Coach W. H. Templeton also withdrew the application of the Albany high school, inasmuch as the team probably would not remain intact throughout the summer.
Four Strong Teams.
After last night's meeting, which was marked with much enthusiasm, it was declared that the four club circuit should be very fast, including in the membership of the four clubs a number of star amateur and semi-pro baseballers.
Indications are the teams will be fairly evenly balanced and a lively pennant chase is in prospect.
As an added inducement for each team striving as hard as possible to win, the league decided last night to split the gate receipts, after the league's share and other expenses have been taken out, on probably a 60-40 basis, the winner getting the big end of the gate.

NEW RATE POSTPONED.
(International News Service)
WASHINGTON, March 29.—The Interstate Commerce Commission today suspended until April 29, proposed cancellation of joint rates between the Gulf, Mobile and Northern railroad company and the Atlanta and West Point railroad company, leaving combination rates applicable instead.

PETITION FOR NEW RATE SCHEDULE ON RAW MATERIALS IS UP TO COMMISSION

Motion for Dismissal, Made by the Defendant Railroads, is Overruled

HEARING MAY REQUIRE TWO OR MORE WEEKS

Seventeen Officers of the Alabama National Guard Taking Examinations

(Montgomery Bureau Albany-Decatur Daily.)
MONTGOMERY, ALA., March 29.—After overruling the motion of the defendant railroads for a dismissal of the petition on the ground of lack of jurisdiction, the Public Service Commission Monday afternoon entered the hearing of the petition of furnace operators of the Birmingham district against alleged unjust and unreasonable increases in rates on raw materials consigned to them. The railroads contended that the commission had no jurisdiction because the rates were preferential ones to a particular class and that the commission could not adjudicate rates which were lower than those granted to the general public. The hearing may require two weeks or more longer.

Take Examinations.
Seventeen officers of the Alabama National Guard are standing an examination this week for promotion to higher grades. The examinations are being conducted by Colonel William P. Screws, Major H. B. Wilkinson of Montgomery and Major Abner Flowers of Ozark.
Those who appeared for the tests were Colonel Hartley A. Moon of Montgomery, Major William L. Baldwin of Birmingham, Major Thomas F. Fallow of Opelika, Captain Luther H. Waller of Montgomery, Captain Joseph O. Moore of Birmingham, Captain Charles B. Taylor of Birmingham, Captain C. S. Whitley of Opelika, First Lieutenant A. B. Mabry of Birmingham, First Lieutenant J. R. Singletary of Birmingham, First Lieutenant W. A. Page of Opelika, Second Lieutenant W. B. Myrick of Birmingham, Second Lieutenant Hugh B. Seals of Birmingham, Second Lieutenant E. M. Jones of Opelika, Major Lucien C. Brown, Birmingham; Major Joseph M. Dickerson, Montgomery; First Lieutenant S. M. Massingill, Alabama City; First Lieutenant John C. McCallum, Birmingham.

Gist Answers Hefflin.
F. W. Gist, agricultural statistician, today declared that he did not intend to get into an argument with Senator J. Thomas Hefflin over the accuracy of the estimate of the crop reporting service because it will do no further good than to advertise the Senator who "is quite capable of doing that without my help." Mr. Gist's retort followed a statement of Mr. Hefflin in Sunday morning's newspapers which said Mr. Gist's predictions had been in line with those of the cotton gamblers.

Mr. Gist did point out that constant predictions of higher prices will have a tendency to cause farmers to increase their cotton acreage and this will continue to put on the market cotton which cannot be consumed and an oversupply will keep the price down. He also declared he had invited Senator Hefflin three different times to inspect the records in order to demonstrate to him how the estimates are made, but that Senator Hefflin had not done so.
Permission Denied.
The Cotton Manufacturing Company, of Memphis, Tenn., which proposed to erect in Montgomery a plant for the clarification of linters and other low grade cotton, was denied permission to dispose of its stock in Alabama by the state securities commission today. The order of the commission today.

SHOOTING OF TWO NEGROES INDICATES BREACH EXISTS YET IN ALABAMA'S FIELD

Twenty Five to Thirty Shots Are Fired at Pair of Miners

ADDITIONAL GUARDS ARE TO BE SWORN IN

Fifty Already Employed to be Stationed at Jefferson Mines

(International News Service)
BIRMINGHAM, March 29.—Although the coal miners strike in this section of Alabama is supposed to have been settled by arbitration of Governor Thos. E. Kilby, there is apparently a mistake as the shooting of two negro miners, one fatally, near a mine in the Pratt division near here last night and the placing of special deputies at nearly all the mines in the district of one of the larger companies, as a precaution against further disorder, would indicate that there still exists a breach between operators and miners.

The negroes, John Dawson and Arthur Whitfield, were returning from work along a road near Pratt City when a number of negroes, estimated at from 6 to 10, opened fire from ambush. Twenty five to thirty shots were fired by the attackers, who investigating officials state, are union miners.
Dawson was severely injured, while Whitfield will recover.
Fifty special deputies have been sworn in to guard the working miners and it is expected that others will be sworn in during the day.

JOHN BURROUGHS, NATURALIST, DIES ENROUTE TO HOME

(International News Service)
BUFFALO, N. Y., March 29.—John Burroughs, world famous naturalist, died on a train today while enroute from California to his home at West Park, N. Y.
Death occurred in a Pullman compartment at 2 a. m. when the New York Central train Number 6, known as the "New York-New England Express" was passing through Kingsville, O.
Burroughs, who had spent the winter in California, has been in feeble health for some time. Had he lived until April 3 he would have been 84 years of age. He was the most famous naturalist ever produced by America and his nature studies along many lines have been accepted as authoritative.
John Burroughs was born at Roxbury, N. Y., April 3, 1837. Received an academic education, and after teaching school for eight years and serving as a treasury clerk and national bank examiner for the ten years following, then turned to his natural bent, the study of horticulture, birds, flowers and the common wild animals of the temperate zone.
American Legion Picture is Hit
"When New York Sleeps" shown at the Princess Monday and Tuesday under the auspices of the American Legion is making a pronounced hit. The Legion is attempting, by a series of performances at the Princess, to raise funds for building a home.

A TASK FOR UNCLE SAM.

Before America goes further into alliances, commercial or otherwise, with Red Russia, Uncle Sam has a course of duty clearly marked before him—the task of procuring the release of Emmett Kilpatrick, of Uniontown, Alabama, now held prisoner by the Reds and recently sentenced to 20 years imprisonment at hard labor.

Kilpatrick was a Red Cross worker in the Russian provinces when the Reds got their clutches on him. Since that time he has been a prisoner and despite the numerous demands made by various organizations, the United States government has failed to obtain his release.

Secretary Hughes spent considerable time writing a note to the Soviet, setting forth conditions upon which America might entertain a proposal for renewal of commercial relations with the Reds. He might have occupied himself to greater advantage in framing an ultimatum to Russia on the Kilpatrick case!

It seems inconceivable that an American citizen could be thus treated without violent protests from his government, but such seems the case. What's to be done about it? This—every citizen of Alabama, if he or she desires, can write or telegraph this minute to the representative in Congress of his or her district and made this protest heard. A congressman or a senator, stirred into action, frequently can accomplish wonderful results with a State Department, however sluggish the latter may appear to be.

PRESIDENTS OF T. P. A.

Post "H" Travellers' Protective Association has been peculiarly fortunate since its organization in selecting its presiding officers. J. H. Calvin, J. W. Clopton, and the late David Martin being president of the organization until this year when T. M. Fautt will guide its destinies and he is qualified to conduct it well. Joe Calvin was its president for eight years. He began with the beginning, writing of the charter being made with 20 members. Post "H" now having a membership of 148. It is largely due to his efforts that the T. P. A. has strengthened and thrived, for in this unselfish work he gave the best that was in him and may rest assured that what he has done is appreciated not only by members of the order but by the community. Not only has he encouraged and advised in the fruition of the T. P. A., but the same generous aid and support did he give the Daily for years when it struggled for the comparative success it has made, when as its president his services were such that the Daily will always be grateful for. Not only have the organizations mentioned been assisted in various way by Mr. Calvin but he's on the job all the time.

MR. HARDING'S TROUBLES

"Government is a very simple thing after all," remarked Mr. Harding during the campaign but Mr. Harding as President of the United States is not finding government a very simple thing, after all.

For campaign purposes all that was necessary to put the country on its feet after the most devastating war known to human history was to elect a Republican President and a Republican Congress. Then everything would automatically be for the best in the best possible of worlds. It is quite a different story, however, when campaign rhetoric is subjected to the acid test of responsible administration.

Although the Harding Administration is not yet three weeks old, Mr. Seibold, The World's political correspondent, reports from Washington that "a pronounced note of pessimism" regarding the outlook for economic and industrial relief is always prevalent in the discussions between high officials of the administration and the newspaper representatives. There is plenty of ground for pessimism, but the Republican party or to put it more precisely, the Republican party in Congress, is the architect of its own misfortunes. Having systematically blocked peace and reconstruction for two years, it is now confronted with all the consequences of its folly and mendacity.

The Harding administration is on its way, but it does not know where it is going. It has no foreign policy that it can define, and it has no domestic policy that is worthy of the name. The peace of the world that was won at such a colossal expenditure in blood and treasure is slowly disintegrating, largely because the United States

senate, under the leadership of Henry Cabot Lodge refused to ratify the treaty of Versailles and assist in stabilizing the victory. With this disintegration has come an economic depression that has mobilized an army of 3,000,000 unemployed in the United States, brought about wholesale reductions in wages and has left American agriculture prostrate. The government is facing an enormous deficit in its revenues and it has no program.

Mr. Harding is promising the American farmer a tariff that would amount to an embargo on imports of food as if this could be of any value in solving a problem that is due to the inability of Europe to buy American food products, for the lack of which millions are on the verge of starvation. There can be no reduction in taxation because the present sources of revenue no longer provide the money that the government is spending. All that can be done is to shift taxation and devise new expedients for obtaining additional revenue. The one constructive piece of legislation enacted by the Sixty-sixth Congress, the Esch-Cummins Railroad law, has already broken down and is doomed to the junk heap.

Government may be a very simple thing on the Marion front porch, but it is a very complicated thing in the White House; yet most of the difficulties with which the Harding administration is contending might have been avoided if the Sixty-sixth Congress had not wantonly sacrificed the welfare of the country in order to manufacture partisan issues for the 1920 campaign. Statesmanship would have ratified the treaty of peace revised taxation and taken up the pressing work of reconstruction, but there was no statesmanship in Congress. There was only a degraded and debased partisanship.

Mr. Harding need look no further than the record of his party to find the origin of his trouble about which he and his advisers are so pessimistic.—New York World.

THE SPIRIT OF KIWANIS

(By W. M. Chaffin in Maury (Tenn.) Democrat)

Kiwanis is today a movement to lift men out of the sordidness of conceiving their business only as a means of accumulating dollars. It is a movement to convince men that only real success comes to the man who conceives of his business or profession as providing for him an opportunity to serve his fellow men.

The ramifications of the expression of this ideal of fair play and unselfish service—are limitless. To the man of religious turn of mind, KIWANIANISM, the spirit of KIWANIS, proves the religion of business. To some it furnishes a moral dynamic which bears fruit in reconstructed business ideals. To still others it provides a new incentive to personal enterprise and ultimate success.

KIWANIS capitalizes all the finer impulses of the average AMERICAN business man and shows him how he may harness them up with his great desire to succeed. It stimulates the high resolve to excel, not for selfish reasons, but to excel that one may more abundantly serve.

KIWANIANS who have caught the true spirit of KIWANIS discard as unworthy any primary desire for personal profit arising from KIWANIS membership. They stamp as absolutely undesirable the man who would capitalize a KIWANIS membership merely as a short cut to business clients. To be sure KIWANIANS do exchange thousands of dollars worth of business each year, but not because they are fellow club members. No organization in the world could succeed which was united solely for the selfish purpose of exchanging business.

KIWANIS provides an opportunity for a man to accumulate ideas from men in other lines of business which will help make his enterprise successful. It provides a means by which men's lives may be touched and their personalities molded into a finer and nobler form. It provides a school in which a man's teachers are his fellow-men, in that they exchange experiences and translate ideals for mutual benefit.

No civic task is too great for KIWANIANS whose minds and hearts have been saturated with the true Kiwanis spirit. Every opportunity for service is a challenge to prove the effectiveness of the spirit of their organization. Not a city in which a Kiwanis club is located can help but feel the influence of the organization if the local members have caught the true spirit of the KIWANIS movement.

KIWANIS is a fighting organization, fighting in its attitude toward anything which is opposed to the principle of fair play whether it be in personal, civic, business or social life, KIWANIS has proved itself the friend of every constructive civic movement and the foe to everything destructive.

Fred Beauvais, Indian guide who is figuring prominently in the Stillman divorce case, may or may not be an ideal lover, but he lacks nothing in ability to talk. A newspaper correspondent went into his office to interview the guide and the latter almost sold the interviewer an insurance policy before the journalist could beat a retreat.

The Tennessee Valley votes unanimously in favor of the development of Muscle Shoals; the majority is considerably less in favor of operation by a private corporation, the majority dwindles.

TIME LIMIT MOVIE
KISS IS PROPOSED

(International News Service)

CHICAGO, March 29.—Is the three-foot kiss long enough for the name. Does film osculation of greater duration corrupt the morals of motion picture fans.

Should there be any time limit on the celluloid caress?

These questions form the basis of a controversy which arose among representing native Chicago citizens, when a dispatch was received from Baltimore, declaring that, in the opinion of the Maryland Citizens' League for Better Motion Pictures, the "three-foot kiss" was long enough for any movie film.

A "three-foot kiss," it was explained, last exactly two seconds. Film kisses longer than that, it was declared in a petition by the organization to Governor Ritchie, are objectionable.

Here's what some well-known persons in Chicago think about it.

Edith Talaferro, star in "Kissing Time."—"It depends entirely on who is doing the kissing. There are some movie stars who can kiss for 300 feet and are well worth watching, but I've seen others who shouldn't be allowed to kiss even their own wives and husbands, they're so clumsy at it. I believe that the three-foot kiss is long enough for the stage."

Max Ascher, of Ascher Brothers motion picture theatre proprietors—"The proposal is just another ridiculous move on the part of reformers who haven't anything better to do. The length of a screen kiss should be determined by the requirements of the scenario. If a movie kiss is harmful, it can be so in one of fifteen feet—the time makes no difference. The kiss is a symbol of love, and is taught in the strictest and most respectable families from childhood."

Arthur Burrage Farwell, head of the Chicago Law and Order League—"Any kiss tending to arouse passion should be eliminated. Personally, I am against depicting kissing on the mouth. I have known of two cases where death resulted from kissing in this fashion through transmission of disease. In 1888 my three-year-old boy died of scarlet fever transmitted by a kiss of a playmate. The most innocent kiss can be fatal. The cheek or forehead is the proper place to kiss."

Albert Webster, head of the Juvenile Protective League—"Kissing in the movies is dangerous, than it is in actual practice. However, I believe that three feet is long enough for a 'soul kiss'."

W. E. Willis, chief motion picture censor—"I depend entirely on the circumstances of the scenario. I think that a husband and wife leaving on a long journey could be allowed more than three feet to kiss his wife goodbye, and the same would apply to a soldier greeting his mother on returning home from the war."

CLEAN UP WEEK

Booker Washington inaugurated a "Clean-Up Day" at this time of year, and the negroes of Albany, with the help of the school are observing it and co-operating for the "Cleanest Town Contest."

Is it not discouraging when the city wagons gathered up the accumulations in the alleys last week to have them looked over yesterday and find tin cans and other articles that could so easily be placed in a box or barrel, or some receptacle until next time the wagons come around? If every householder would have enough civic pride to do his or her part, we might have a chance to win the "Cleanest Town Contest." Ashes in alleys are not so bad if the school boys would take them over the alleys after school. Will they do it? Will Second avenue upstairs residents refrain from throwing their garbage into the alleys from their windows? Better get a garbage can before being notified by the authorities.

Watch your alley! Many cars with ladies in petting will be going up and down in Albany this week. And not only this week, but until after the state inspectors come and afterwards to keep the "Cleanest town clean."

Cultivate civic pride!

CUBIST HOSIERY

COMING INTO STYLE.

(International News Service)

LONDON, March 29.—Hexagons, pentagons, octagons—in fact, all the agons known to geometry, as well as squares, triangles, circles and other favorites of Euclid, will appear on the new stockings.

Women's hose this season will bear such striking decoration as—

A poster effect with small grey, white-cared creatures that resemble mice.

Hose, in a word, has been infected with the craze for embroidery.

Irregular bowel movements should be corrected, as they lead to chronic constipation. Take a dose of Prickly Ash Bitters at bedtime and you will get its beneficial effects after breakfast next morning. It empties the stomach and bowels and makes a man feel fit for the day's work. Price \$1.25 per bottle. Sold by all Druggists.—Adv.

Amusements

HENRY WALTHALL, PICTURE STAR, TO VISIT ALBANY.

Henry Walthall beloved by thousands of movie fans and who has been a motion picture star for several years, will within the next few days pay Albany a visit, playing personally at the Princess Theatre in a new comedy drama "Taken In." This play is said to be a little gem and one that will please every one of his admirers. In the cast with him will appear personally Mary Charleson formerly with him in pictures, in addition to Wm. Clifford, Arthur Rutledge and others.

CIVILIAN CLOTHES

Mr. Meighan does the Captain McGinnis role created by Thurston Hall in the original and in some respects outshines the original in the conception of the part. As for Martha Mansfield as Florence Lanham, she, too, has it on Olive Tell, the original creator of that role. The year is post-war in theme and effective despite its belated appearance in the field. People may say they've been fed up on war, ante and post war stuff, but they're going to accept this feature. Clara Beranger in adapting the continuity has done an intelligent job, preserving much of the comedy lines and tiffs between the temporarily estranged couple for all they were worth. Hugh Ford directed, and ably.

The support looks like an all-star aggregation and would be if Mr. Meighan's role was somewhat less conspicuous. Individually and collectively it's a fine cast and equally deserving distinguishing mention. Civilian Clothes" shows at the Princess Wednesday.

AMERICA DOESN'T KNOW
MEANING OF HIGHBROW

(International News Service)

CHICAGO, March 29.—America doesn't know what a highbrow is.

This is the opinion of Sinclair Lewis, author of "Main Street" and former editor of the Yale Literary Review.

"Americans read fiction with complicated plots and call it good," he said. "They read simple, good books, and reject them as 'highbrow.' We have many good authors here! Such men as James Cabell, Joseph Hergesheimer, William Allen White, Floyd Dell are creating a new era in American literature."

In Hard Lines

I could not work at all and had to take to my bed with a high fever due to intestinal indigestion, gases in my stomach and pain in my right side. I had spent my last cent for doctors and medicine, which gave me no relief. I was in despair. A lodge brother gave me a bottle of Mayr's Wonderful Remedy, and the first dose relieved me. Thanks to this medicine I am now in the best of health." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. S. M. Thompson, in Albany, Owl Drug Company in Decatur and druggists everywhere.

COAL DUST LODGED
IN MINER'S LUNGS

Tells how his cough was conquered and health restored.

"In November, 1916, I was working in a coal mine and the doctors said the coal dust had settled in my lungs. I couldn't lie down on my side, couldn't sleep and had constant pain in my right lung and under my shoulder blades. I coughed so hard the blood would spurt out of my nose. Finally the doctors had me change climate and live outdoors, but didn't improve."

"Then I came home and started on Milks Emulsion. Thank God I did, as it did me a lot of good right from the start, loosening up the coal dust in my right lung. In a few weeks my lungs were free. I could sleep like a baby, had an excellent appetite and my cough left me entirely. I gained back 30 pounds in weight and went back to work in the mine completely restored to health."

Thousands of victims of dust-filled air develop the same trouble that Mr. Bunn had. Milks Emulsion costs nothing to try, so why not at least try it? Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. It helps build flesh and strength and is a powerful aid in respiration and repairing the effects of wasting diseases. This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles, some with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 75c and \$1.50 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere. Sold by Thompson's Drug Store, Albany, and Beason-Cobb Drug Co., Decatur, and all first class druggists.—Ad.

Sweet and Dainty
Through and Through

Let us wash your bed pillows.

We will call for them, wash your feathers in their own tick, dry and fluff them in a gentle, warm breeze, and return your pillows sweet and dainty, all the way through.

They'll be ever so much downier and softer—the cosiest of cushions for sleepy heads.

And they'll be sanitary, too, free from the dust which sifts through the ticks and robs your feathers of their fleeciness; fragrant with the cleanliness of pure soap and rainsoft water.

Phone for our driver today—we'll send him at once and have your pillows back just as promptly.

WATER-PROOF LUGGAGE

You can carry a Craftsman Fabrikoid Bag or Suit Case through a dozen cloudbursts without staining or spotting it in the least. Water and Craftsman Fabrikoid often meet, but they never mix. As no moisture can possibly get through to soften the backing material, this luggage always keeps its shape. When we show you this beautiful, stylish luggage—every piece guaranteed—you will wonder how the price can be so moderate.

The Story of Our States

By JONATHAN BRACE
XV.—KENTUCKY

THE kinship of Kentucky and Virginia is that of parent and child. From Virginia came most of the settlers of the western state, and with them these pioneers brought Virginia institutions and ideals. It was not until 1750 that the first authentic journey was made by a white man into central parts of the region afterwards called Kentucky.

Further explorations showed that this territory held two important attractions for settlers. The first was the great fertility of what was called the Blue Grass region. The so-called blue grass, from which this state is nicknamed the "Blue Grass State" is in no wise peculiar to Kentucky.

The second inducement for settlers was the fact that there were no Indians living in this region. It was later found that many roving bands of savages crossed the Ohio from the north and sorely harassed the early colonists until Clark's expeditions into Ohio and Indiana checked their invasions. In fact, the name Kentucky is probably derived from the Iroquois word kentake, meaning "hunting land." Another interpretation is "dark and bloody ground," but this is doubtless incorrect.

The main highways of travel at that time were Daniel Boone's "Wilderness Road" through Cumberland Gap and down the Ohio. Hardy pioneers poured into this new territory in such numbers that in 1792, with the permission of Virginia, Kentucky was admitted to the Union as the fifteenth state with an area of 40,398 square miles. Kentucky has thirteen electoral votes for president. The remarkable physical condition of its population as shown in a report of the volunteers in the Civil war. This gave their average height as nearly an inch taller than the New England troops and with a correspondingly greater girth of chest.

Seat of the Trouble.

Herbert often complained about the peculiar disposition of his small cousin, with whom he could not get along well. After a recent disagreement he came into the house out of patience and exclaimed: "Well, mother, James and I might just as well quit trying to be friends if he is my cousin. We just can't agree. He's too full of human nature."

Archbishop's Prerogatives.

By ancient right the archbishop of Canterbury is the only man in England who has the power to give to a layman a degree of medicine. He also may confer degrees of law, music or art on those whom he regards as having proved themselves worthy of such honors.

Inventor's Triumph.

For years it was believed that a machine could never be made which would weave wicker baskets and furniture. But a machine which produces flawless work at 30 times the speed of the best hand weaving is now in use.

Great Peat Bog.

Smolen Island, near Kristiansund, Norway, is a flat spot of land possessed of numerous areas of peat bog. It is doubtful whether there is anywhere a better location for the production of peat in large quantities.

WHY NOT THINK?

It's a little thing to do,
Just to think.
Anyone, no matter who,
Ought to think.
Take a little time each day
From the minutes thrown away,
Spoke it from your work or play.
Stop and think!
You will find that men who fail
Do not think.
Men who find themselves in jail
Do not think.
Half the trouble that we see,
Trouble brewed for you and me,
Probably would never be
If we'd think!
Shall we journey hit-or-miss,
Or shall we think?
Let's not go along by guess,
But rather to ourselves confess,
It would help us more or less
If we'd think!

MODERN HEALTH CRUSADE PAGEANT

This pageant under the direction of Miss Dudley assisted by other teachers, will be presented on the Guild House park between Gordon Drive and Jackson street at the close of the parade on Friday, April first, Field Day.

Pageant Cast.

Bugler, Claudy Bethauly.
Herald, Carl Thomas.

ST. JOHN'S GUILD IN SPECIAL SESSION

Monday afternoon St. John's Guild met in social session at Wilder place, with Mrs. W. B. Edmundson. This just following the busy meetings of the Guild during Lent, was like a school girl's holiday. During the hours egg salad, Bavarian cream and coffee was served. Almost the entire Guild was in attendance.

Miss Myrtle Martin and little niece, Dorothy Ewin, returned to Nashville yesterday, after spending the week-end with Miss Myrtle's mother, Mrs. W. J. Martin.

McAdams P. W. Patterson of St. Louis, Mo., and Emma McComas of Columbus, Ind., are guests of Mr. and Mrs. F. L. Inman.

Mrs. J. L. Gunter was called to Columbus, Miss., this morning on account of the serious illness of her mother.

Mrs. T. C. Mundy was called to Birmingham today to her mother Mrs. M. H. Lowman who was struck by an auto Sunday on return from Easter services sustaining a severely fractured limb.

MISSIONARY SOCIETY CENTRAL M. E. CHURCH

The Women's Missionary Society of Central M. E. church met in the home of Mrs. J. H. Donnell, March 28. The president, Mrs. J. L. Proctor took the chair, and conducted the devotionals. The 28th chapter of Matthews was the lesson for the hour. This beautiful lesson, "The Resurrection of Christ" brings joy to the Christian for it is the words of the risen Lord himself.

A business session followed items of interest was taken up and dispatched in order, the close of which Mrs. Rose lead the prayer. A social hour was enjoyed and light refreshments served.

MRS. J. J. ROSE,
Publicity Supt.

CHARITY DANCE AT LYONS

A delightful social event of Friday night will be the dance to be given in the new ball room at Lyons Hotel, to which members of the local dancing coterie are looking forward with keenest anticipation. Music will be furnished by a six piece Jazz orchestra. The checking list is with the ladies of the Auction Bridge club, and grand march will begin at 9 o'clock.

Proceeds of dance to be donated to relief of starving Europeans.

Mr. and Mrs. Davis, Mr. and Mrs. French, enroute from Florida to their Omaha home, will be the guests this evening of Mr. W. A. Bibb. They were school mates of fifty years ago.

Mr. and Mrs. H. M. Burt returned Sunday night from a ten day trip spent on the Gulf coast.

Mr. and Mrs. Henry Hartung, of Albany, were the guests of Rev. and Mrs. H. L. Turner, of Sheffield, last night.—Tri-Cities Daily.

Miss Imogene Winton returned to Montgomery yesterday to resume her studies at Woman's College.

PERSONALS

Tul Worley is in the city, arriving on Easter. Mr. Worley will go to Atlanta in a few days when he will represent a sales company for whom he has recently conducted a successful sale at Corinth, Miss.

T. G. Almon will leave shortly to assume a position of promotion at Pensacola, Fla., with the Southern Express Co., with which he has been associated here. He will be followed by his family. The departure of Mr. and Mrs. Almon will be regretted by a wide circle of friends.

PAINTS TAXICAB TO PAY HIS FARE.

(International News Service)
PARIS, March 29.—Paris probably has the only futurist taxicab in the world—and it occupies a prominent place near the Opera. A few nights ago an artist, returning to his home by taxi, found that he had no money to pay his fare. He suggested to the chauffeur that he "work out" the sum by painting futurist designs on the sides of the taxi. The chauffeur consented and held a candle while the artist worked.

ICE ENCRUSTS PEAK OF MT. POPOCATEPETL. (International News Service)

MEXICO CITY, March 29.—Phenomenal reactions are taking place on Mt. Popocatepetl, according to scientists who declare themselves puzzled by the changes daily taking place. The mountain was recently reported as smoking volubly and for some time thereafter the mountainside was covered with snow. This melted, it is thought, due to the continued heat from the volcano. A layer of ice now encrusts the surface. Ice so close to the crater of an active volcano is a condition considered strange by geologists.

Distributes Many Bibles.
During its existence of more than a century the British and Foreign Bible society has distributed approximately 25,000,000 copies of the Scriptures in more than 400 languages and dialects, the very names of some of which are unknown to many students of languages.

Tin in United States.
Only 68 tons of tin, nearly all of it obtained from Alaska, was mined in the United States in the last year. More than \$2,000 tons was imported.

Lunch will be served by the Parent-Teachers Association on the school grounds on Friday April 1—Field Day. 28-4t

Albany Business Men Winners Again

The Albany Business Men were winners again in last night's bowling tournament when the champions failed to put in their appearance, the A. B. M. rolling for average. Austin broke the individual record last night, rolling a total of 551 in the three games.

The scores follow: Albany Business Men Austin 153 208 190 Sorber 115 118 111 Eggers 129 145 132 Royer 82 169 136 Compton 90 109 133

HOME DAMAGED

Sparks on the roof caused slight damage to the home of R. A. Worley, 338 Grant street, shortly before noon. The Albany fire department extinguished the blaze.

FIRST FINE

Mayor E. C. Payne Tuesday morning assessed the first fine under Albany's new ordinance prohibiting the running at large of chickens. The defendant was fined \$2.50 and costs.

Washington Has Rude Awakening

(International News Service) WASHINGTON, March 29.—Washington came out of its dream of a premature summer with shocking suddenness today. The magnolias and cherry blossoms around the parks brought out by almost a month of mid-summer weather, were chilled to- day by a drop of more than 50 degrees in temperature.

From straw hat weather to temperature overnight dropped to almost freezing point, raising havoc with the foliage and shrubbery in the do- zens of parks.

Lunch will be served by the Par- ent-Teachers Association on the school grounds on Friday April 1—Field Day. 28-4t

THE JOY OF SEEING

One of the greatest pleasures to a good optometrist is to take an individual with poor vision who goes stumbling through life not knowing but that they see as well as anyone and to correct their vision so they can see and enjoy the Movies and also recognize their friends at a distance.

Come and let us help you as we have helped others. Consultation Free. J. W. THORNTON Optometrist and Manufacturing Optician Albany, Ala.

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Decatur woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Decatur woman's experience: Mrs. Virgil Calvin, 1213 Fourth avenue, says: "I had just recovered from the gripe when I noticed my kidneys were in a weak and disordered condition. There was a painful sensation extending up into the neck of my bladder and I was in bed most all the time, up one day and down the next, and I felt miserable. I had large circles and puffy spots underneath my eyes and all the remedies I tried brought me no relief. Finally, one of the family suggested me trying Doan's Kidney Pills and he got a supply at Dillehay Bros. Drug Store. I began using them and they soon made me feel much better."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Calvin had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

REDS WILL RELEASE KILPATRICK, MAYBE

(International News Service) MOSCOW, RUSSIA, March 29.—The Soviet government is willing to release Emmett Kilpatrick, of Alabama, who was captured during the Red drive against General Wrangel's army on the Crimean front on condition that "Jim" Larkin or Benjamin Gitlow, two American communists, pardoned by the state of New York, it was declared today in official circles. Soviet officials said they would re- gard this as a fair exchange.

Both Larkin and Gitlow were ar- rested in the anti-Red raids carried out in New York city last year by the Department of Justice. They were sentenced to prison and are now serving terms.

Kilpatrick was confined for some time at Andronovski Lager, a for- mer monastery, which was turned into a detention camp for foreign pris- oners. Kilpatrick expressed regret that the State Department had made no direct inquiries regarding him.

Kilpatrick was in good health and spirits.

London Hears of American Plan

(Montgomery Bureau Albany) LONDON, March 29.—"America has opened informal disarmament discus- sions with Great Britain," said a na- tional Washington dispatch print- er in The Daily News today.

According to the Washington cor- respondent, the United States is ur- ging an agreement to include interna- tional control of war chemicals.

CAPRONI BUILDS NEW AIR LINER

(International News Service) PARIS, March 29.—Particular in- terest is being taken in France in ex- periments which Signor Caproni is at present making on his latest huge passenger-carrying airplane. Signor Caproni has made no attempt to build rapid machines, although the one he is experimenting with at present is capable of flying at ninety miles an hour.

His latest air-liner has a wing- spread of 198 feet and the total weight of the machine is twenty-four tons unloaded. It has four engines developing 400 horsepower each and is capable of carrying at least 100 passengers and a crew of five. The passengers are to be housed in three large triplanes.

PRUSSIAN PRINCE FIDDLER FOR MONEY

(International News Service) BERLIN, March 29.—Prince Fried- rich Wilhelm of Prussia fiddles to raise campaign funds for the Prussian monarchistic party, the German National People's Party. Investigators have accused the Communists of re- ceiving their funds from Moscow, and the Socialists of having taken them from the State treasury. The mon- archistic Berlin newspaper, the Post praises Prince Friedrich Wilhelm for his choice of methods.

The prince played a matinee concert at the Singakademie, but the distribution of tickets was carefully controlled to prevent the entrance of persons who might have wished to break up the concert.

MEXICO ESTABLISHES OIL EXPORT RECORD

(International News Service) MEXICO CITY, March 29.—The ex- ports of crude oil from Mexico in the month of January were 17,572,826 barrels, worth 62,802,731 pesos. Nine- ty-six per cent of the total exports was of crude oil and the remainder refined oil and by-products. All of the companies have paid into the treasury, under protest, the export tax fixed by the Government, amount- ing to a total of \$4,966,862.62, pend- ing a decision of the Supreme Court as to the legality of the assessment.

REORGANIZING MEXICAN CONSULATES IN U. S.

(International News Service) MEXICO CITY, March 29.—Ramon P. Denegri, Mexican Consul General in New York, has just been ap- pointed inspector of all Mexican con- sulates in the United States. With Eduardo Ruiz, former Consul at Los Angeles, he is reorganizing the con- sular service.

Inauguration Day

Inauguration day was fixed on March 4, 1789, by the Continental congress simply because the date was convenient upon which to get the new government established, a thing which congress wanted to accomplish as soon as possible after the adoption of the Constitution.

Thomas Jefferson and John Adams, third and second presidents of the United States, died on the same day, the fiftieth anniversary of the signing of the Declaration of Independence, which Jefferson penned.

The Story of Our States

By JONATHAN BRACE XIX—INDIANA

IT WAS the French flag which first floated over Indiana. In the middle of the seven- teenth cen- tury La Salle's explorations brought him through the wooded wilderness of Indiana. Shortly there followed Jesuit missionar- ies from Quebec and in their trail came adventurous rangers and fur traders. French forts and trading posts were soon es- tablished. In 1703 the British took possession of this territory after the French and Indian wars, and remained in pos- session until the Revolution.

One of the boldest campaigns of the Revolution was that of Clark's little army, whose indom- itable courage and audacity finally defeated the large British gar- rison at Vincennes and won the Northwest territory for Virginia. Pioneers from the East and from Kentucky made their way into this new territory, and among these was Abraham Lincoln's family. It was in 1816, the year that Indiana became the nine- teenth state, that Lincoln at- tained citizenship in Indiana. With the increase in population by 1800 Indiana Territory was formed, extending from the Ohio border west to the Mississippi and north to Canada. Vincennes was selected as the first capital. In 1804, when the Louisiana Purchase was made, the government of Louisiana was placed in the hands of the Indiana Territory officials, so that for one year the capital of Louisiana was also at Vincennes in Indiana.

Although nicknamed the Hoos- ier State, from the old southern slang for rough back- woodsmen, Indiana, with its 36, 254 square miles, its fifteen Pres- idential electors, and containing as it does the center of popula- tion, is considered of utmost im- portance politically. (© by McClure Newspaper Syndicate.)

HIDES IN WEST TEXAS SELL AT LOW PRICES

SAN ANGELO, TEX., March 29.—Although shoes here are still selling from \$8, \$10 \$12, hides in West Tex- as are not bringing sufficient money to pay freight or express charges. A rancher at Water Valley, shipped a side twenty-two miles. The local consignee sent him a check for one cent; the balance due after the ex- press charges had been paid. L. J. Bolls, of Buena Vista, expressed five goat hides to this city, for which he received \$1.50. The express charges were \$1.10. A 42-pound hide from Owego brought \$1.68. Express charg- es were \$1.10.

S. A. Moses Locates in Albany

A. S. Moses, an optometrist of note graduate of one of the best northern colleges of Ophthalmology, and charter member of the Alabama State Opti- cal Society, has come to Albany to make his home and opened a very modern optical store at 217 Johnson street. Mr. Moses is registered in Morgan county and his shop is equipped with every scientific instrument known to the profession optical.

In a letter dated Feb. 16, 1921, J. H. Tindler, secretary-treasurer of the Alabama State Optical Society, speaks of Mr. Moses as follows: "He is well qualified as an optometrist, is regis- tered as such in this state and to the best of my knowledge and belief has al- ways been ethical and honest in his practice. He is a gentleman of high character, honest and reliable in his dealings with his fellow men and en- joys the confidence and esteem of the people in the community (Tuscaloosa) in which he has been located for years."

The Moses optical store is open for inspection as well as business and Mr. Moses invites you to make him a visit. He carries the highest grade of goods made in the U. S. in lenses as well as frames. He tests your eyes in the most scientific manner, ther sends the formula to a factory in At- lanta where expert workmanship is assured. By so doing, Mr. Moses believes that the best glasses are ob- tained.—Adv. M29-30-31.

IF YOUR EARS RING WITH HEAD NOISES

If you have roaring, buzzing noises in your ears, are getting hard of hear- ing and fear Catarrhal Deafness, go to your druggist and get 1 ounce of Par- mint (double strength), and add to it 1/4 pint of hot water and a little gran- ulated sugar. Take 1 tablespoon four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open; breath- ing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.—Adv.

COTTON MARKET OPENING IS EASY

(International News Service) NEW YORK, March 29.—The cot- ton market opened from two to 15 points lower today on weakness at Liverpool and continued unfavorable European conditions.

The South was the heaviest seller. Wall street also sold while Liverpool purchased. There was some partial recoveries after the call but the under- tone remained easy and at the end of the first 20 minutes, prices showed declines of about 15 points.

The dispute concerning images in the Christian churches was most vio- lent in Europe in the eighth and ninth centuries.

BAPTISTS ORGANIZE COUNTY CONVENTION IN HARTSELLE MEET

With delegates present from ten of the churches of the Morgan County Baptist Association, Dr. E. Y. Mullins, of Louisville, spoke on "Baptist opportunities in Europe" at Hartselle Monday afternoon. Dr. Mullins has just returned from Europe. He is making an all-state loyalty tour in preparation for the Baptist campaign this year.

About 60 per cent of the people have pledged funds to the campaign already, Dr. Mullins announced. Dinner was served at Hartselle Monday noon by the ladies of the Baptist church of that city.

Organization of the Morgan County Baptist Sunday school convention was perfected with the following officers: Rev. C. C. Davison, Decatur, president; Prof. E. L. Hays, Hartselle, vice president; J. E. Howell, Albany, secretary.

The executive committee made plans for evangelistic work during the summer, T. M. Dix having been made chairman of this campaign.

WOMEN DENY THEY DRESS IMMODESTLY

(International News Service) LONDON, March 29.—English women are up in arms over the statements of several prominent clergymen about the immodesty of present-day dress.

"I cannot think where they have seen the dresses that they describe," said Lady Alexander, generally considered to be London's best-dressed woman. "I think that modern women's dress is charming and more modest than it has been for generations, in addition to the hygienic value that it has gained in recent years."

EX-KAISER'S YACHT OFFERED FOR SALE.

(International News Service) LONDON, March 29.—The yacht Meteor V., formerly the property of the ex-Kaiser, has been offered for sale to certain Dutch interests.

The Meteor V. was built at the Germania Werft, Kiel, and completed in 1914, but only took part in one racing season.

She has now been overhauled and equipped for a voyage to America.

Negotiations with American purchasers have so far been without positive results, and the yacht is now at the Reichswerft in Kiel.

TAGGERT MAY BUY BLOUNT SPRINGS

(Montgomery Bureau Albany-Decatur Daily.) MONTGOMERY, ALA., March 29.—Thomas Taggart, National Democratic politician and the man who made French Lick famous, has indicated enough interest in Blount Springs, thirty miles north of Birmingham, to request information about the price, the number of acres in the property and the number of health-giving springs. This information has been received by M. C. Allgood, state commissioner of agriculture and a native of Blount county.

Senator Taggart has been invited to purchase Blount Springs and to make of it a Southern French Lick. He didn't say he would, but he said he was interested. Blount has seven springs furnishing a variety of waters which have been prescribed by physicians for many years.

SLEEPY STUDENTS MUST BE DIPLOMATES.

(International News Service) CAMBRIDGE, MASS., March 29.—Harvard is trying efficiency on its "goodies." The latter are the women who fix up the rooms in the college dormitories and the late sleepers among the students is the first to feel the effects.

Rumor has it that the "goodies" must report late sleepers and that some of the marathon snorers of the Harvard contingent have been caught. Some sort of truce has been effected so that the persecuted undergraduate may "pound his ear" so long as he pleases, if he makes arrangements with the "goodies."

UPRISING REPORT FALSE.

(International News Service) MEXICO CITY, March 29.—Conditions in Sonora are better than ever and reports of an uprising among the Yaqui Indians there are untrue, according to a dispatch received by the War Department from Governor Miguel Pena.

ITALIAN ROBBED

(International News Service) NEW ORLEANS, March 29.—Five armed men in an automobile held up John Garanto, Italian storekeeper, beat him within a few blocks of where thousands of men are employed and robbed him of \$5,300 Saturday morning. The men jumped back into their automobile and escaped. Garanto had obtained the money with which to cash checks of laborers near his store.

Revival Services Are Continued

On account of the great interest being taken in the revival services at Central Baptist Church it has been decided to carry the meetings on through Wednesday with services at 7:30 p. m. on Tuesday and Wednesday. At the service tonight the pastor will speak on "The Key to the Gospel" and the male quartet will sing "O Me Enough for Me." All are invited.

RATS USED BANKROLL TO FEATHER THEIR NEST

(International News Service) INDIANA HARBOR, IND., March 29.—Mysterious robberies in Anthony McQuilski's soft drink parlor were solved recently when police found a rat nest made of \$103 in bills.

McQuilski had just placed \$92 in a cigar box when he turned to make change for a customer. When he came back the money was gone. Policeman John Bergesha lined up everybody in the place and searched them. None had even \$20, however. Then a search was made of the entire store, its cellar and garret. The searchers were about to give up when a squeak from a rafter was heard. Twelve baby rats were nibbling at the edges of McQuilski's \$92 roll. They had eaten \$1.67 worth before he rescued it.

NOTICE—MORTGAGE FORECLOSURE SALE.

Under and by virtue of a mortgage executed to the undersigned The New Morgan County Building & Loan Association on November 26th, 1920, by Percy J. Parker and Lillie Parker, on the property hereinafter described, which mortgage is recorded in Volume 259, Page 558 of the Records in the office of the Probate Judge of Morgan County, Alabama, which mortgage was for the sum of Four Thousand Seven Hundred Dollars, and is in default, the said The New Morgan County Building & Loan Association will on April 6th, 1921, at the Court House in Morgan County, Alabama, at about the hour of 11 o'clock a. m. sell, at public outcry to the highest and best bidder for cash, the following described real estate in the City of Albany, Alabama, to wit:

Lots Sixteen (16) and Seventeen (17) in Block Twenty-six (26), Addition Three (3) of the Decatur Land Improvement & Furnace Company, to Decatur, Alabama, as shown by plat of said Addition filed in plat book page 2.

This March 29th, 1921.

ALBANY-DECATUR DAILY JOB DEPT.

Are you waiting for rents to come down?

Are you one of the millions who are patiently paying rents that are from 20% to 50% too high?

If you are, do you know the facts?

Do you know that Albany, Ala. is short 300 homes; that experts estimate the United States to be four years behind in building requirements?

The law of supply and demand always fixes prices. So long as there is a home shortage, landlords will demand high rents and tenants will be forced to pay them.

This one way out is to become a home owner yourself. You can build now cheaper than at any time in the past five years, and almost as cheaply, we believe, as at any time in the next five years.

Lumber and building materials have taken a tremendous drop. The complete cessation of building has caught manufacturers with big stocks which they have been forced to sell almost at cost.

If you buy now you can take advantage of their situation. If you wait, you will buy when everyone else is buying, and you will find the increasing demand forcing prices upward.

In our opinion, right now is a good time to build.

You owe it to yourself to investigate thoroughly. Call and see us, or a letter or phone call will bring us to you at once.

Life-Saving Stations for batteries of all makes

Get that examination NOW!

THAT is precisely the function of the Prest-O-Lite Service Station—to make your present battery last until it hasn't a leg to stand on; until it gasps and gives up the ghost.

And you won't be told that you need a new battery until all hope for the old one is gone. That's the Prest-O-Lite code of ethics on which the tremendous Prest-O-Lite business was built, and on which it will be maintained. Go, therefore, with confidence that the Prest-O-Lite Service Man will give you his expert and honest opinion. If your battery is strong and healthy, he won't recommend medicine. Prest-O-Lite struck the "vice" out of "advice."

When you do need a new battery, you'll be glad to know that Prest-O-Lite is back to pre-war prices and that an allowance will be made on your old battery.

Get that examination now. The motoring season beckons you and a sound, strong battery.

Twenty-Year-Old Wizard Pitcher in Training for Cubs at Pasadena, Cal.

(International News Service)

PASADENA, CAL., March 29.—Every news writer who has visited the training camp of the Chicago Cubs here this Spring has been "let in" on a "little secret."

In most cases the scribe wouldn't be roaming about more than ten or fifteen minutes until some member of the Cub's organization would drift alongside and confide the information that "the team has a world beater in a new pitcher this year."

And after a half hour or so the "find" would be trotted out for inspection. He is Virgil Cheeves, twenty years old, of Dallas, Tex. John J. Evers, the new manager of the Cubs, is said to be very enthusiastic about him and Alexander "the Great," Jim Vaughn and George Tyler, veteran of the Cubs' pitching staff, regard Cheeves as being a youngster of great promise.

Cheeves, who is a right hander, was annexed in September last year by the Cubs. He had been in the West Texas League and won fourteen games and lost twelve in that organization before the Cubs found him. He started in two big events for the Chicago Nationals last season, winning one game from Philadelphia and having one with the Boston Braves, sewed up, 2 to 2, when he was relieved in the eighth frame.

Cheeves is six feet tall and weighs 190 pounds. He has a "world of speed," according to the Cub catchers and Alexander is instructing him in the fine points of the game. All of the Cubs' regulars really expect Cheeves to be one of the sensations of the year on the big time lots this Summer.

"I just naturally had to learn how to play baseball," said Cheeves, with a delightful Southern drawl. "I was around the professionals in Texas training camps from the time I was knee high to a grasshopper."

Cheeves is a model young man. He never smoked "but once," never tasted anything alcoholic, he says and doesn't use a "cuss" word. He is a member of the Baptist Church and is said by his teammates to be a fine example of the ideal professional athlete.

"What is your greatest ambition," Cheeves was asked.

"To make enough money to make my folks happy all the rest of their lives," he replied.

INDIAN MAIDS IN FIGHT FOR MILLIONS

(International News Service)

MUSKOGEE, OKLA., March 29.—An oil fortune worth millions, with accrued royalties totalling \$1,500,000 is still under litigation here after an eight-year fight by heirs of Barney Thlocco, late Creek Indian tribal chief.

Two pretty Indian maidens, both claiming to be direct heirs to the huge fortune, are waging bitter fights in court for the estate. Attorneys for Martha Jackson, already granted \$1,000,000 of the estate, are fighting to win the remainder of the fortune and to prevent Mary Saley, another Creek maiden, from sharing.

Mary claims she is the only living heir of Chief Thlocco, who died in 1899. Three years after his death, the Government gave his estate a great allotment of ground in the Oklahoma Reservation.

U. S. S. COLORADO IS LAUNCHED AT CAMDEN

(International News Service)

CAMDEN, N. J., March 29.—The United States battleship Colorado just launched at the plant of her builders, the New York Shipbuilding Corporation, here, is one of four sister ships, the construction of which was authorized by Congress in 1916.

The keel of the Colorado was laid in May, 1919, and the launching took place twenty-one months later. The overall length of the new dreadnought is 624 feet 6 inches and its full load displacement about 33,600 tons.

Propulsion will be by four electrically driven propellers, each thirteen and one-half feet in diameter, the propelling machinery being of the same general type as that of the battleship New Mexico.

ASK THAT CHINESE TREATY BE ABROGATED

(International News Service)

MEXICO CITY, March 29.—Declaring that Chinese are monopolizing the labor jobs in the northern district of Lower California, a delegation of citizens of that territory has arrived here to ask that the treaty with China, negotiated six years ago, be abrogated or revised. Restrictions on Chinese immigration in Lower California are asked. The delegation has informed President Obregon that there are 10,000 celestials in the district, that they work for much lower wage than the Mexican laborers; that they have attacked Mexicans and that 500 of the latter have left because of inability to compete. What action the Government will take has not been indicated.

Kangaroo grass is the most esteemed fodder grass in Australia and is much relished by cattle.

8 SHOTS, 8 HITS, IN LESS THAN MINUTE

The crew of the U. S. S. Stoddert, of which Dewey Cannon, of near Albany is a member, recently established what is said to be a world's record when the gun crews of the destroyer got eight hits out of eight shots in less than 60 seconds at a range of 1100 yards, firing with a three-inch anti-aircraft gun.

The San Diego Union says: Eight shots, eight hits in less than 30 seconds at a range of 1100 yards. This is the superb record made by the three-inch anti-aircraft gun crew of the United States torpedo boat destroyer Stoddert at short range battle practice on the southern drill grounds off San Diego. Naval officers express the opinion that the Stoddert's gun crew established a world's record for this type of gun.

A. J. Beahm and J. Strong, engineers first class, are the two pointers whose keen eyes and exceptional skill enabled the Stoddert to smash the anti-aircraft target to bits.

At the time of the firing the destroyer was steaming at a speed of 5 knots while the target, 15 feet in length, was being towed at a speed of five knots in the opposite direction to which the warship was steering. The remarkable exploit of Strong and Beahm is further exemplified by the fact that the shells fired were solid, and not shrapnel.

BOMBED FROM AIR

Exceptional interest probably will be aroused in the Stoddert's superb shooting in view of the assertion of General Mitchell of the army air service that battleships could be successfully bombed from the air despite intense anti-aircraft gunfire.

Tests are shortly to be held on the Atlantic coast to settle the dispute that has arisen in army and navy circles over General Mitchell's contention. Navy officers say that gunpointers with the skill of Strong and Beahm, firing shrapnel in their anti-aircraft guns instead of solid shells, would smash a bombing plane into bits before it could get into position to drop a torpedo no matter at what high speed the plane was traveling or the dodging tactics employed by its pilot.

The rapidity in which Strong and Beahm fired is indicated by the fact that they sent a shell on its unerring course to the target at the rate of one approximately every six seconds. With a battery of such guns and gunpointers in action the skies literally would become a mass of flying shrapnel, leaving little or no space for a bombing plane to dodge through. Naval officers of the fleet in port say they wish the army fliers who have volunteered to bomb the ships during the tests to be held on the Atlantic coast the very best of luck, but for themselves they prefer to stick to the deck of their ships, let the torpedo do all where it may from the skies.

CREW WINS NAVY "E."

The Stoddert's crew, who not only won the highly prized Navy "E," denoting excellency in gunnery, for their ship, but who also won a \$20 gold piece each as a present from Uncle Sam, include: J. Strong, A. J. Beahm, C. H. Bowen, engineman second class; J. E. Newton, water-tender; W. Patterson, fireman second class; R. W. MacArthur, gunner's mate second class; J. J. Fiorentino, fireman second class.

While the anti-aircraft gun crew was whanging the daylight out of their target the forecastle 4-inch gun crew also was heaving shells into their target until it looked like a sieve. This crew scored 80 percent, winning the Navy "E" and "honoring in" on the prize money that Uncle Sam passes out each year to his prize gunpointers and crews.

Keep the bowels active and the digestion good if you would enjoy health. A dose of Prickly Ash Bitters whenever disorders appear will keep a man on the active list. Price 1.25 per bottle. Sold by all druggists. —Adv.

SLOAN'S GOES RIGHT TO THE ACHING SPOT

You can just tell by its healthy, stimulating odor, that it is going to do you good

THOUSANDS of men and women, when the least little rheumatic "crick" assails them, have Sloan's Liniment handy to knock it out. Popular over a third of a century ago—far more popular today.

That's because it is so wonderfully helpful in relieving external aches and pains—sciatica, lumbago, backache, neuralgia, overstrained muscles, stiff joints, weather exposure results. A little is all that is necessary, for it does penetrate without rubbing, to the sore spot. No muss, no stained skin.

All druggists—35c, 70c, \$1.40.

Sloan's Liniment (Pain's enemy)

Petition for New Rate Schedule

(Continued from page 1)

mission said it had not been shown the company that the purchasers of the stock would have complete protection or that there were any safeguards against the dissipation of the company's assets.

William C. Oates, executive officer, went to Memphis and made an investigation of the company before the commission rendered its decision. The company proposed to establish a plant here for the improvement of low grade cotton through a secret process which has not been placed in general use.

Commissioners Named

W. H. Rowland, of Covin route two, was appointed a member of the jury commission of Fayette county by Governor Kilby today. He will succeed R. P. Caine, whose term expired in January.

N. A. L. Jones, of Odenville, was named a member of the jury commission of St. Clair county.

Jelly Beans Banned

Montgomery's "jelly-beans" have attracted the attention of the police and will receive much attention during the next few days, according to announcement of the police department. Five young men classed as jelly-beans were fined five dollars and costs each by the recorder for standing on the street corners, eyeing the young women as they passed and offering gratuitous information about their appearance.

Chief W. H. Taylor said he intended to make Montgomery a jelly-bean-less town.

Lawyers Meet

Col. Alexander Troy, secretary of the Alabama State Bar Association, today announced that the annual luncheon which is an event of every annual convention of the association will be held this year at one o'clock Saturday, April 30, at the Southern Hotel in Birmingham. All members of the association have been invited.

Rotarians Busy at District Meet

(International News Service)

BIRMINGHAM, March 29.—Rotarians here for the eighth district conference go down to business this morning being called to order in conference at 9:30 o'clock by District Governor Wilbur C. Smith, of Atlanta. Reports of committees and suggested changes in the constitution and by-laws of the international Rotary were considered at the morning session. Following these three model luncheons were given at noon by Birmingham Rotarians at three separate hotels. A number of talks on Rotary by members will be the program for this afternoon and the Birmingham Kiwanis club will entertain the visitors tonight at a bal lat—the country club.

Fire damp of coal mines is virtually the same gas as natural gas.

to attend this luncheon.

The annual convention of the association will be held in Birmingham beginning Thursday, April 28, and continuing through Saturday.

Lunch will be served by the Parent-Teachers Association on the school grounds on Friday April 1—Field Day.
